

ARMIES FACE EACH OTHER

Soldiers Separated by Shakhe River.

Operations, However, Continue at Standstill, Both Sides Resting.

War Office Has Partial List of Losses Sustained at Yental.

PETERSBURG, Oct. 21.—The two armies face each other across the Shakhe river, but operations continue at a standstill. The heavy fog which hung over the plain was burned by the sun yesterday afternoon and there was some desultory artillery firing from some of the Russian batteries, but nothing important. One of the Associated Press correspondents says the Japanese did not reply, indicating a possible shortage of ammunition or a desire to conceal the location of their guns.

Russian Losses.
The War office has no fresh news this morning, except a list of losses of Gen. K's Seventy-first division of the Fifth Siberian corps, and Gen. Morozoff's division of the Second Army. The official lists of officers killed and wounded between October 11 and October 13 totals 172, including Maj. Babinski and seventeen field officers killed. The wounded are in the proportion of one to six.

The list for the heaviest day's fighting still unreported, and doubtless will show the losses at Liao Yang, when officers were killed or wounded. The loss among the men are not yet reported, but they are thought to approximate not much over twenty thousand.

Port Arthur Bombarded.
News from Port Arthur brought to us by a junk which left there October 19 says a fierce bombardment began October 16 was still progressing without interruption. Many buildings had been damaged and ships in the harbor had also been hit by shells, but the character and extent of the damage are not stated. The Japanese main forces are now posted at Liudziang. They are placed guns of large caliber on the mountain.

The Russians continue making sorties successfully and inflicting heavy losses on the besiegers, whose losses since the commencement of the siege are said to have been 50,000.

RUSSIAN LOSSES FRIGHTFUL.

End Visible of the Ghastly Slaughter.

BERLIN, Oct. 21.—Col. Gaedke, war correspondent of the Tageblatt, telegraphed to his paper today from Mukden. "I have been unable to telegraph for two days owing to the absence of the messenger on the 19th and 20th. Both armies are much fatigued. They occupy positions in close contact. Only an occasional shot breaks the stillness. A general Russian attack appeared to have been planned for the night of October 20, but a freshet in the Shakhe river prevented it. The roads and fields are dry now. It rained again the night of the 20th.

The Russian losses were frightful. Regiments have as few as 800 men left. The Viborg regiment, of the 1st Siberian division, and 300 men killed. The feeling is accordingly grave. End is visible of the ghastly slaughter.

NOT A MAN ESCAPED.

Every One in Detail of 200 Cossacks Wounded.

MUKDEN, Oct. 21.—Every man of the two hundred Cossacks commanded by Capt. Tourgenieff who, on Tuesday night, reconnoitered the Japanese left flank and who near Sandoung unexpectedly encountered a force of Japanese with machine guns, was wounded and every horse, except Capt. Tourgenieff's, was hit by the bullets from the Japanese machine guns. Tourgenieff, though mortally wounded, carried off one man behind his saddle, while others managed to creep back to camp. As already stated, not one man was left on the field. There is the greatest fear on the part of the Russian command of falling into the hands of the Japanese, the Russians being convinced that they torture their prisoners.

ENVELOPED IN FOG.

Thick as Darkness Might Stop Hostilities.

HUANSHAN, Manchuria, Thursday, Oct. 21.—(By courier to Mukden, Oct. 21.)—Yesterday passed quietly. Along the Russian center there was a heavy fog, but nothing serious. The Japanese also was without incident. This morning the fog was thicker than yesterday. The chief obstacle to a resumption of the advance continues to be the fog and the state of the roads.

TO CURE DANDRUFF

It Is Necessary That the Dandruff Germ Be Destroyed.

"Destroy the cause, you remove the effect." Kill the germ that causes dandruff, falling hair and baldness, you will grow more dandruff and your hair will grow more luxuriantly. Herpicide not only contains the dandruff germ destroyer, but it is also a most delightful hair preparation in its scientific balance. It destroys the dandruff germ, and more other claims to be, for the simple reason that it is only recently that a dandruff germ has been discovered. Herpicide kills the dandruff germ, and actually kills the dandruff germ by leading drugstore. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

WOULD ABOLISH REPEATERS.

Improvement Which Taps Wireless News in Morse Characters.

GREAT BARRINGTON, Mass., Oct. 21.—At a demonstration at his laboratory, in Stockbridge, today, Stephen Dudley Field, nephew of the inventor of the Atlantic cable, received a wireless telegram, sent through an ordinary De Forest electrolytic responder, and recorded it in Morse characters on a paper tape. Instead of using the regular telephone receiver, the transmitting device is a small, but intricate and delicate mechanism, called an amplifier. It is a nest of coils and magnets, some hung on glass threads one one-thousandth of an inch in thickness, all so adjusted as to record the slightest variation in the electric current.

One of its most valuable features is that the amplifier may be used to connect an ocean cable and a land line or wireless telegraph instruments to wire lines of cables, so that a message sent by ocean cable from London may be received in Manila via Glace Bay, N. Y., and San Francisco without interruption or repeating, although passing over three distinct systems of the telegraph.

It would also connect the three repeating stations from San Francisco to the Philippines, and the operators would exchange messages direct.

NEVER EQUALLED.

BROWN, TERRY & WOODRUFF CO., 166 Main St.

STUCK ON THE FAMILY.

Brothers Take Turns in Wedding Woman; Bill Next on List.

MEMPHIS, Tenn., Oct. 19.—Thomas J. Payne and Mrs. Bessie Payne, each 26 years old, were married at Fort Smith, Ark., today. Two years ago the bride obtained a divorce from the bridegroom on the grounds of non-support. Will Payne, a brother of the bridegroom, 46 years old, then divorced his wife, by whom he had six children, and married the divorced wife of his brother Tom. This union proved anything but a happy one, the wife still loving her first husband.

Will Payne yesterday was granted a divorce from Bessie on statutory grounds, his brother Tom being named as co-respondent. Thomas then married his divorced wife. All reside in Muldrow, I. T.

BURDET'S VANILLA EXTRACT

Is the best, and the best is none too good for your food and drink. Insist on having Burdett's.

MARRIED HIS WIVES' PET.

Aged Kentuckian Takes as Sixth Wife a Young Girl.

MAYKING, Ky., Oct. 21.—At Shelby Gap, east of here, Johnson Mullins, a well to do logging man, was wedded to Miss Jane Poutah, 20.

This is Mullins' sixth marriage, and a new record in this State. His first wife died each about three years apart.

The sixth was the pet of the previous five, and Mullins had watched her grow up from babyhood to a beautiful mountain lassie.

She lived only a few doors from his home, and was a daily caller there, running errands for the second, third, fourth and fifth wives of the man who is now her husband.

"I love him; why should there be anything strange about it?" she asked.

STOLEN KISSES COME HIGH.

Kentucky Woman Demands \$15,000 for Just a Little One.

CINCINNATI, O., Oct. 21.—Is a stolen kiss worth \$15,000? This is the question which will have to be decided by Federal Judge Cochran at Covington, Ky.

Mrs. Grant Mitten, a blue grass society leader of Mason, Ky., thinks she is entitled to that amount for a kiss stolen from her by a man who is now her husband's friend.

A man can't work right with a lame back. Takes all the life out of him. Doan's Kidney Pills make lame backs strong.

GEESSE DARKEN SKY.

Pennsylvanians Alarmed When Fowls Shut Out Sun.

POTTSVILLE, Pa., Oct. 21.—Coincided with the opening of the hunting season a flock of wild geese, estimated at 10,000, flew over Schuylkill county this afternoon. The sky was darkened in the vicinity of Pine Grove and Auburn with the geese. The whole flock rested for the night on the Blue mountains, and scores of hunters have gone out to get a shot at them as soon as the season opens tomorrow morning.

FISH FLOW FROM WELL.

Minnows by Hundreds Come From Artesian Fountain.

ROSWELL, N. M., Oct. 21.—Hundreds of minnows are flowing out of the Hamilton artesian well at Artesia, N. M. The flow was struck today. Fish flowing out of an artesian well are unprecedented in the artesian belt. The minnows have well-developed eyes, and are unlike the minnows in the Mammoth Cave.

Horrid.

Patience—They always ask me to play when they know I can't play without my music.

"The next time I go there I'll take my music with me."

"Just so they won't ask you to play, I suppose."—Yonkers Statesman.

TO WORK FOR IRRIGATION

National Congress to Meet at El Paso.

Call and Plans of Twelfth Annual Gathering, Nov. 15 to 18.

Information for All Interested in Conserving the Great Natural Resources of Country.

The twelfth National Irrigation congress will be held at El Paso, Tex., November 15 to 18 (inclusive), 1904.

All who are interested in conserving the great natural resources of the country, extending the habitable area, increasing the products of the land, insuring greater stability of prosperous conditions, making occupations upon the land attractive, the extension of internal trade and commerce, and a wider knowledge of a great economic movement which has for its ultimate object the upbuilding of an empire within the borders of a great Nation, are invited to attend this congress.

Plan of Organization.
The organization of this congress will be as follows:

The permanent officers of the congress, including the chairmen of the sections, Members of the United States Senate and House of Representatives, Governors of States and Territories, Embassadors, Ministers and other representatives of foreign nations and colonies.

Members of State and Territorial irrigation commissions.
Ten delegates to be appointed by the Governor of each State and Territory.
Four delegates to be appointed by the Mayor of each city of more than 25,000 population.

Two delegates to be appointed by the Mayor of each city of less than 25,000 population.
Two delegates, each duly accredited by any Chamber of Commerce, Board of Trade, Commercial club or other commercial body.

Two delegates, each duly accredited by any regularly organized irrigation, agricultural or horticultural society.
Two delegates, each duly accredited by any regularly organized society of engineers.

Two delegates, each duly accredited by any agricultural college, or college or university having a chair of hydraulic engineering, forestry, or other subject related to the general purposes of the congress.

Only Those Interested.
It is respectfully suggested that in the appointment of delegates, persons should be selected who are sincerely interested in and purpose attending the congress, and that appointments be made as early as possible.

Please have full name and postoffice address of delegates mailed to Executive Chairman, Twelfth National Irrigation Congress, El Paso, Texas, that they may receive special information which will be mailed to each delegate not later than October 5, 1904.

The work of the congress has been so greatly enlarged through the interest in matters pertaining to irrigation that the executive committee has decided to systematize the work of the next congress, according to the provisions in articles 5 and 6 of our constitution; consequently, the work of the twelfth congress has been divided into five sections, the titles and chairmen being shown on this letter-head.

Each section will be conducted by a chairman who will be recognized as an eminent authority in his line, which insures a thorough exposition of the respective subjects through the presentation of papers, addresses and discussion by the most eminent men interested in forestry, irrigation, climatology and their correlated subjects.

Highly Instructive.
It is confidently predicted that the coming congress will be more highly instructive and entertaining than any congress held in the past.

El Paso, the western metropolis of the Lone Star State, and on the border-line of Old Mexico, is making preparation for the largest congress in its history, but is so unique in character as to be interesting and enjoyable to all.

A comprehensive exhibit of the products of irrigation will be installed adjoining the great convention hall, especially constructed for this congress. The exhibit will include mechanics and electrical machinery and appliances.

Ample hotel accommodations can be assured to every delegate.

Special railroad rates have been made to apply from all parts of the United States to this congress, the rates being the lowest ever made to any convention. Apply early to your nearest railroad agent, so as to insure the rates being made applicable from your section.

Of Great Importance.
All newspapers and other publications are earnestly requested to give wide publicity to this official call, and to impress upon their readers the far-reaching importance of this congress.

The vice-president and member of the executive committee for each State are urged to make the provisions of this call as widely known as possible, and insure the largest possible delegations from their respective States.

Every State in the Union is vitally and directly interested in the subjects to be discussed in the coming congress.

In the various sections information will be dispensed regarding the increasing production by irrigation in the Atlantic States as well as in the Pacific section; forestry problems in New England and along the Appalachian chain, as well as along the Rockies and Sierras; engineering applied to protect from the devastation by floods; drainage of the submergent areas; directing and conducting the water to its most beneficial use; climatology, with special reference to the series.

TEA

Tea and coffee are pretty well known; are they not?

There's no end of cheating in them.

THE EXECUTIVE COMMITTEE.
By C. B. Booth, Chairman; H. B. Maxson, Secretary.
GENERAL COMMITTEE AT EL PASO.
By W. W. Turner, Chairman; A. W. Gifford, Secretary.
Approved: W. A. Clark, President and Ex-officio Member Executive Committee.

APPEAL TO UTAHNS.

Asked to Aid in Making Irrigation Congress a Huge Success.

OGDEN, Oct. 21.—Supplementing the official call for the twelfth National Irrigation congress at El Paso, Tex., I would call upon the people of Utah to respond as they always have done, by sending their most representative and enthusiastic irrigators as delegates, that they may aid in making the El Paso congress the best of them all.

When we reflect how much good has already resulted from the eleventh congress, held at Ogden, it is not too much to say that the El Paso congress will surpass all previous congresses held in the West.

El Paso is making a supreme effort and this congress is sure to have international importance, as it will in all probability tie up international questions in the settlement of waters of the Rio Grande. The citizens of El Paso are now erecting a hall specially for the congress, and are doing this much as to inspire all the arid country which is manifested by State irrigation congresses held and patterned after us, how much must be and will be accomplished at El Paso, Tex., where we shall all be received with the well-known Southern hospitality, and our puny efforts have done this much as to inspire all the arid country which is manifested by State irrigation congresses held and patterned after us, how much must be and will be accomplished at El Paso, Tex., where we shall all be received with the well-known Southern hospitality, and our puny efforts have done this much as to inspire all the arid country which is manifested by State irrigation congresses held and patterned after us, how much must be and will be accomplished at El Paso, Tex., where we shall all be received with the well-known Southern hospitality, and our puny efforts have done this much as to inspire all the arid country which is manifested by State irrigation congresses held and patterned after us, how much must be and will be accomplished at El Paso, Tex., where we shall all be received with the well-known Southern hospitality, and our puny efforts have done this much as to inspire all the arid country which is manifested by State irrigation congresses held and patterned after us, how much must be and will be accomplished at El Paso, Tex., where we shall all be received with the well-known Southern hospitality, and our puny efforts have done this much as to inspire all the arid country which is manifested by State irrigation congresses held and patterned after us, how much must be and will be accomplished at El Paso, Tex., where we shall all be received with the well-known Southern hospitality, and our puny efforts have done this much as to inspire all the arid country which is manifested by State irrigation congresses held and patterned after us, how much must be and will be accomplished at El Paso, Tex., where we shall all be received with the well-known Southern hospitality, and our puny efforts have done this much as to inspire all the arid country which is manifested by State irrigation congresses held and patterned after us, how much must be and will be accomplished at El Paso, Tex., where we shall all be received with the well-known Southern hospitality, and our puny efforts have done this much as to inspire all the arid country which is manifested by State irrigation congresses held and patterned after us, how much must be and will be accomplished at El Paso, Tex., where we shall all be received with the well-known Southern hospitality, and our puny efforts have done this much as to inspire all the arid country which is manifested by State irrigation congresses held and patterned after us, how much must be and will be accomplished at El Paso, Tex., where we shall all be received with the well-known Southern hospitality, and our puny efforts have done this much as to inspire all the arid country which is manifested by State irrigation congresses held and patterned after us, how much must be and will be accomplished at El Paso, Tex., where we shall all be received with the well-known Southern hospitality, and our puny efforts have done this much as to inspire all the arid country which is manifested by State irrigation congresses held and patterned after us, how much must be and will be accomplished at El Paso, Tex., where we shall all be received with the well-known Southern hospitality, and our puny efforts have done this much as to inspire all the arid country which is manifested by State irrigation congresses held and patterned after us, how much must be and will be accomplished at El Paso, Tex., where we shall all be received
